

UGAM CHEMICALS

- COMPANY** : M/s. VERTEX INDUSTRIES, JABALPUR
- PROBLEM REPORTED** : Chimney having temperature around 700 deg C was Coated several times with many different heat resistant Coatings available from market but could not withstand more than more than four months.
- PROPOSED SOLUTION** : Application of UGAM H R 1200 heat resistant coating Up to 1200 degrees C was proposed.
- ACTION TAKEN** : All previous coatings were removed by power Grinding. And proposed system was applied with spray.
- RESULTS ACHIEVED** : Coating was done in May 2008, and still intact & there is no complaint received, however company has given many repeat orders for several heat resistant applications.
